CONCEPT

Located in the heart of Triple Bay, Six Senses Amaala is surrounded by the untouched beauty of the Prince Mohammad bin Salman Nature Reserve. Between glittering coves and mountain peaks, the meandering streets and paths that crisscross the site lead to the dramatic Mesa, complete with striking overhangs and caves that stand testimony to the ancient history of this land. To the north, the hillside village, with its enchanting plazas, opens onto the long sweeping beaches of Hijaz Cove, home to a beach restaurant, family pool, and branded residences. To the south, the village leads around the point to natural rock pools, pocket beaches, and a mangrove boardwalk to access the spa.
